

## Forklift Train-the-Trainer Seminars

It's that time again. It's time for your supervisors, managers and employees to attend the "Forklift Train-the-Trainer" Seminar. Building on the success of our last two years of "train-the-trainer" workshops on forklifts and tractors, the demand for this training has been overwhelming. This year we have expanded the number of organizations involved, and expanded the training into Southern California and the northern San Joaquin Valley. This year's forklift training will be held throughout the state in seven different locations throughout April and May. We encourage any farm or agricultural processing operation with forklifts to attend.

The class is only three hours long and costs \$35, which includes a binder and all of the training materials used at the school. Each attendee will attend three (3) separate training sessions at the school including the following:

- **Overview and Regulatory Requirements – Cal/OSHA Consultation**
- **Safety Aspects of Forklift Operation – Various Safety Experts**
- **Proper Operation and Maintenance – JM Equipment Company**

Each session has its own cutoff date for registration, so be sure to get the attached registration sheet in as soon as possible. If you have any questions regarding the class, please contact Roger or Casey at (559)252-0684.
